REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: A resin comprising the reaction product of a polyester with a substituted monoanhydride wherein the monoanhydride is octadecenyl, hexadecenyl, eicosodecenyl, n-octenyl or nonenyl succinic monoanhydride and wherein the amount of anhydride is from 100-10,000 ppm is not suggested nor disclosed in the prior art of record. Closest prior art over claim 1 is Huang (US 6342587) and Moeller (US 6630050), which are overcome due to the unexpected results found in reference Caldwell (US 7087706). Caldwell discloses that molten substituted succinic anhydrides react substantially faster than unsubstituted molten succinic anhydrides but the data is only convincing for the monomers and anhydride concentration above since the examples of Caldwell only disclose 0.4 wt% octadecenyl succinic anhydride versus 0.4 wt% succinic anhydride. The Examiner further cites Yamamoto (JP 06100767), Savariar-Hauck (US 5695905) and Pfaendner (US 5693681), used to reject claims dependant from claim 1, however none of these references overcome the unexpected results set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alicia M. Toscano whose telephone number is 571-272-2451. The examiner can normally be reached on Monday to Friday 8:30 AM to 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
